

CAPABILITY STATEMENT

Woman-Owned | Minority-Owned | MBE Certified

COMPANY OVERVIEW

Spartan Solutions Group (SSG) is a technology and professional services firm specializing in enterprise data management, data engineering, business intelligence and analytics, database operations, application development, quality assurance, and program management. SSG supports mission-critical Federal health IT environments requiring secure, reliable collection, processing, integration, validation, and reporting of complex clinical and administrative data.

CORE CAPABILITIES

Enterprise Data Management & Architecture

- Enterprise data warehouses and data marts
- Data architecture, modeling, lineage and metadata
- Data governance, quality and standardization

Data Engineering & Integration

- ETL/ELT pipelines and automated file processing
- Source-to-target mapping and reconciliation
- Healthcare data integration and workflow automation

Database & Infrastructure Operations

- DB2, SQL Server and MySQL administration
- AIX, Linux and Windows production support
- Monitoring, patching, backup, recovery and performance tuning

Business Intelligence & Analytics

- Qlik Sense, QlikView, Power BI, SSRS and SAP BO
- Dashboards, scorecards and self-service analytics
- Ad-hoc, operational and executive reporting

Application Development & QA

- Web and database application development
- SDLC, requirements traceability and release support
- Functional, system, regression and user acceptance testing

Program / Project Management

- Agile, waterfall and hybrid delivery
- Risk, schedule, requirements and stakeholder management
- Technical documentation, reporting and knowledge transfer
